Jumbo Stemware

Serving up a ton of fun has never been more inviting with the NEW Jumbo Stemware collection. We've rounded up our super-sized stemware for this line, which features a NEW schooner with a whopping 53 oz capacity!

Ideal for Instagram, Jumbo Stemware provides operators with stylish, entertaining vessels to serve cocktails and enormous desserts or to create head-turning displays. And with martinis, margarita glasses and schooners, you have the variety to accommodate many menu items.

Reasons to Love:

- All the fun without the heavy weight and shattered glass danger
- Glass-like clarity
- Lighter weight for easier handling than similar glass pieces
- Ideal for Instagramable large cocktails, desserts and creative displays
- Operationally friendly: dishwasher safe, lightweight and shatterproof
- Fully stocked and ready for immediate shipping and sampling

The biggest benefit, however, is safety. Other large stemware is made from glass, which is heavy/top-heavy and slippery (not to mention expensive), potentially putting guests and staff in danger when they break.

The Jumbo Stemware collection is the only line of giant stemware made from crystal clear, shatterproof plastic and is significantly lighter weight than its glass counterparts. Enjoy serving fun and flirty cocktails and desserts while relishing the safety and savings that come with Jumbo Stemware's upmarket plastic bodies.
